High Style High Performance

Palm™ m515 handheld

The PalmModem® Connectivity Kit allows you to quickly download email, perform remote HotSync® operations, or browse the web using web clipping applications (sold separately, Internet Service Provider required).

The Smart Professional Choice — Whether you're managing your contacts or your calendar, composing an email message or a document, the Palm™ m500 series handhelds give you power and sophistication in one ultra-slim design. Extend the capabilities of your handheld with built-in dual expansion. The Palm Expansion Card Slot for SDIO peripherals, MultiMediaCard and SD expansion cards, and the Palm Universal Connector let you add new software, business applications, memory, a keyboard, or even a GPS receiver.

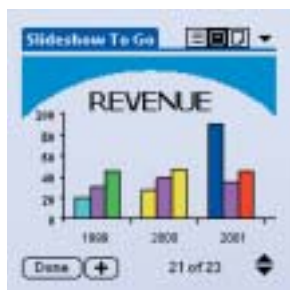

Work smarter on the go — increase your productivity wherever you are by editing and creating Microsoft Word and Excel compatible documents, or viewing and sharing PowerPoint presentations (Windows only) on your handheld.¹ Synchronise and manage your schedule with Microsoft Outlook (Windows only) or Palm Desktop software. Compose email messages on your handheld, then send and receive them remotely using a modem or compatible data-enabled mobile phone, connectivity software (MultiMail® SE, SMS, and web clipping software included), and an ISP account.

(Modem, email, and Internet access sold separately. Internet account required.)

Expand your handheld with a variety of expansion cards — business applications, eBooks, back-up, and more (sold separately).

Included in the box

DataViz® Documents To Go®

Easily view, edit, and create Word and Excel compatible files, and view and share PowerPoint files right on your handheld.

Sheet To Go
